

# Mansbridge Primary School

## Our aims and vision

At Mansbridge Primary School through trust, respect, and understanding we will work in partnership with the community to provide a safe, happy and stimulating learning environment. We will encourage individuals to be caring, to value each other and to grow in confidence and self-esteem. We will value and promote creativity and independence, enabling each individual to reach his/her potential.

- To create a happy, secure and effective learning environment for all.
- To teach the essential skills of literacy, numeracy and information communication technology and promote an enquiring mind
- To develop a caring attitude towards others and the environment.
- To build self confidence and raise aspirations of all children.
- To encourage the development of physical skills and encourage them to recognise the importance of pursuing a healthy lifestyle and keeping themselves safe.
- To help children differentiate between right and wrong and recognise not only their own rights as individuals, but also their obligations to the community.
